

NWW

RECESSED WALL WASH (2' & 4')

DIMENSIONS

PRODUCT HIGHLIGHTS

- Uniform illumination of vertical surfaces/ displays
- Low-iridescent, specular aluminum internal reflectors
- Unique reflector lock-in system for easy maintenance without tools

CONSTRUCTION - Fixture housing, lampholder brackets, end sections and reflector constructed of code-gauge, die-formed steel. Housing channel crimped along sides for added rigidity/straight alignment.

ELECTRICAL - All devices UL/CUL listed. Suitable for damp locations. Damp location emergency pack must be specified separately. Ballasts are solid-state electronic. Ballasts and lampholders replaceable without removing from ceiling. Discrete voltage must be specified for emergency pack options when wired with flex. Where lamps are included as part of the fixture, lamp CRI and color temperature must be specified.

FINISH - All metal parts painted after fabrication following treatment with phosphate rust inhibitor. Finish coating of housing reflecting surfaces is with white, high reflectance (minimum 92%) polyester powder.

FLANGE KIT - This fixture is not available as a flanged fixture. Use either an FKNWW12 or FKNWW14 flange kit to mount in a sheet rock ceiling.

PHOTOMETRICS - Please visit our web site at www.lsi-industries.com for detailed photometric data.
